Subject: Bremrton Gasworks
[Bremerton MGP construction flyer \(3\).pdf](#)
[Work Plan Incident Action and Time Critical Removal Action Former Bremerton MGP Site Nov 4 2010.pdf](#)

Mayor Lent,

Cascade Natural Gas is starting work on the beach cleanup tomorrow. Attached are their work plan describing what they will be doing and a flyer they prepared that I will be handing out to a few residents on Thompson avenue to let the neighborhood know about the elevated truck traffic. The dates of night work will be November 5 - 8th and may extend a couple days longer if there are any difficulties with getting the work done during low tide. Most of the work will have to be done at night when the tide is at its lowest, so residents may see bright lights on the McConkey and Sesko properties and shining onto the beach. There will also be heavy trucks bringing equipment and backfill material into the site and waste out of the site at night.

Trip McConkey has discussed the work with the residents on the block and Cascade will be notifying the Bremerton Police Department in case they get complaints about the trucks, lights, or noise.

The USCG is also planning on issuing a press release tomorrow advising the public that the work is starting. If I get it in advance, I will send it to you.

Please let me know if you have any concerns.
